Product Profile

What Is Visual Trio Xp?

Visual Trio xp is a smart ERP, a solution that weaves the various aspects of Business, in form of modules, integrated like a virtual organization. This way it synergizes the varied resources and activities of an organization, thus making it simpler to achieve the desired business goals and keep your business up and running.

Why Visual Trio Xp?

- ▶ It's a truly flexible solution
Visual Trio xp is the ultimate in flexibility. Its modular design allows you to choose only the components your business needs. Because Visual Trio xp is inherently scalable, it can grow with you, absorbing increased demand without the need for additional personnel. And it doesn't end there. Visual Trio xp features numerous parameters and user-defined fields that are completely customizable
- ▶ It's easy to use and to own
System-wide features such as a consistent Graphic User Interface (GUI) improve usability and help ease Visual Trio xp's respectable learning curve. Powerful "drill anywhere" functionality provides access to source information at any time.
- ▶ When considering TRIO's simple licensing, support and upgrades program, Visual Trio xp's total cost of ownership represents significant value compared with solutions of equal capability and performance

"Imagination rules the world."

- Napoleon Bonaparte

ORDER MANAGEMENT

The entire business is a cycle with the head start being receiving and giving of orders. Managing these orders is the function that would map the future of the entire business cycle. This makes order management a critical business activity. The order management module is given a structure that ensures optimum business cycle. Its complete integration from inquiry to closing of orders gives you status reports of every order, thus time lags in delivery of goods and receiving payments are a rare occurrence.

FINANCIAL MANAGEMENT

Ensure compliance and predictability of business performance, so your organization can gain deeper financial insight across the enterprise and tighten control over finances. Visual Trio xp Financial Module automates financial management and accounting and financial supply chain. With this you can transform finance from an administrative department to a strategic business partner. One that provides deep operational insight, unifies strategic action, and measures results quickly.

INVENTORY MANAGEMENT

Inventory tracking and managing is no more a hassle. Manage your inventory at 9 main levels and 'N' number of sub-levels, this gives you a clear picture on your inventory position of a particular brand, to a Location you can drill down to the level of the shelf where your inventory is stored. This makes it easier

and cost effective when it comes to the usage of your inventory. Transfers of your inventory can also be maintained and tracked. Your entire inventory can now be bar-coded.

EXCISE MANAGEMENT

The important law of government of India is no longer a nightmare. Manage your manufacturing as well as trading excise with great simplicity. Maintain all your mandatory reports of excise. This also includes Job - work excise.

TDS MANAGEMENT

Get all your TDS reports with least of efforts. Also file your returns through web with the help of eTDS. Reduce all your paper work hassles.

VALUE ADDED TAX

Maintain the VAT reports; also get your tax invoice. Completely in compliance with the government rules.

SALARY MANAGEMENT

Optimize your salary processes with a complete, integrated, salary module. This module automates your HR processes. This would thus help you capitalize on your workforce talents.

FIXED ASSETS MANAGEMENT

Manage your purchase, sales and depreciation of fixed assets with compliance to IT law and Company Law. Making it easier for you to manage your cost and reducing obsolescence.

Quality Control Excise Management
Inventory Management Salary Management
Value Added Tax eTDS

SUPPLY CHAIN MANAGEMENT

Manage end-to-end procurement and logistics for your complete business cycle; from self - service requisition to flexible invoicing and payment, optimizing the flow of material. This will enhance your capabilities to work with the real time Business Cycles, in turn giving you time to focus on your core competencies.

QUALITY MANAGEMENT

Maintain a unified approach through quality management. Quality Management Module enables you to have a definite insight on your quality aspects, by providing you with reports on your vendor analysis and material analysis, thus making it smoother for you to make the critical decision related to quality.

PRODUCTION PLANNING

Production planning helps discrete and process manufacturers manage the entire life cycle of product development and manufacturing. Define your Bill of material at assembly as well as sub-assembly level, thus get definite bifurcation of your materials and plan your production schedule accordingly. Also get a variance report of the materials consumed and make your material related decisions accurately.

DATA SYNCHRONIZATION

Centralize what you have to, and decentralize what you can. Through data synchronization you can review the working of your entire organizations and the activities of the different locations; thus exercising a better control.

Return on Investment

Visual Trio xp caters to the most comprehensive of Business needs. It is a combination of best of benefits like:

Seamless Integration: Removes the barriers that stand between people, systems & Information

Scalability: Accommodates virtually unlimited growth

Adaptability: Allows easy Customization of features & functions-and helps to cope with constant change
